"Obama was made by theJews."

I have seen enough of them up-close in DC between 1977-2008 when I lived there or visited often to not be overly impressed with their professionalism. Many were what we Marines would call "jokin' and smokin'." And this also applies AFTER 9/11/01.

IF he is allowed to survive, he may relate a different story than what is now being presented. One thing I can say about James von Brunn, and even his foes will admit, is that he is a forthright, blunt German-American (both mother and father of German ancestry from Missouri) -- who minces no words and is not afraid to say whom he hates and why. And he was no fool or, as we say in the Marines, a "Jumpy Jake" (nervous and panicky).

This word is like calling a black by the n--- word, or a Jew by the k--- word. Further, ABC used the insinuating phrase "von Brunn's fellow white supremacist."

No secession, no violence, no overthrow, no militia -- just areas where we, like the Amish, or any Orthodox Jewish enclave in upstate New York, or the Mormons in 19th century Utah, can be safe. And preserve

our genes, culture and language.

hate and violence --- being brought over by Sephardic Jews operating out of
Newport RI and Charleston SC in the infamous transatlantic "passage" in fetid ship

white American colonists. (Georgia banned slavery in the early 1700s and was
overruled by the royal governor.)

> Who brought black slaves here to America against their will? Not the average White! Queen Elizabeth I of England and later kings wanted to get rich, and they hired eager financiers and slave traders such as Aaron Lopez, one of many Jews who operated the brutal slave passage ships out of Newport, Rhode Island. Many Blacks actually know about this Jewish role. Most Whites actually objected from the start to the immoral and cruel slave trade, which also caused tension and destroyed white labor. But once the Africans were here, plantations had to acquire them from Jews in order to survive against their cotton or tobacco competitors who didn't have to pay any wages to slaves. It snowballed by the laws of business into an unstoppable Jewish business that lined the king's pockets as well. Georgia and other British colonies protested slavery and passed laws against it; they were revoked by the British Crown. Just ten percent of Southern Whites had slaves, and treated them fairly well as valuable workers, and almost no Northerners has slaves. Most Whites alive today have almost zero ancestral guilt for the Jewish-run, Jewish-financed, king-of-England-enriching slave trade. But in 1861-65 it cost White America 600,000 dead in the "Civil War," many of them very fine young men of good genes. (Based on a 2005 Loyola University study of the eye color of Americans in the year 1900, it is probable that 75% of Whites before this holocaust of our young men had blue or light eyes. The Civil War was a genetic bloodbath.)
